### Acrylic Mirror

#### General Cleaning:

DuraVision™ recommend cleaning their acrylic mirror faces with soap and water and then with a clean, soft, lint free, damp cloth. Use a non-abrasive polish, such as Johnson's Pledge or Mr Sheen for a clear bright reflection.

Saturate a clean soft cloth with polish, then spray the mirror face with polish. Wipe the wetted cloth over the mirror surface. With a another clean dry cloth buff the mirror face until it is clear of polish.

#### DO NOT USE:

- abrasives
- acids
- solvents such as petrol and laquer thinners

#### Swimming Pool Use:

DuraVision™ recommends rinsing the mirror in fresh water after use in chlorine treated swimming pools. Keeping the mirror out of sunlight after use will also lengthen the life of the Learn to Swim Mirror.

#### Graffiti Removal:

Any graffiti should be removed from the mirror face as soon as possible and preferably within 24 hours. To remove graffiti, use a non-abrasive substance such as De-Solv-it Stain Remover. Not all graffiti cleaning agents are suitable. Failure to use an approved cleaning agent may damage the mirror surface.

#### Scratches:

To remove scratches or repair blemishes on acrylic mirror faces only, use the following products:

- For cleaning use NOVUS plastic polish #1
- For fine scratches use NOVUS plastic polish #2
- For badly scratched surfaces use NOVUS plastic polish #3 followed by #2 and #1.
